

Istiaq Ahamad

Mern Stack Developer

Address: 📍 Barisal Sadar Upazila

Phone: 01616551879

Email: ruhan15-5232@diu.edu.bd | | Github: [Github](#)

Objective:

To contribute my skills as a MERN developer to a dynamic organization where I can actively participate in building robust and scalable web applications. I aim to leverage my strong technical knowledge and collaborate effectively with cross-functional teams, and contribute to the growth and success of the organization.

Skills And Technologies:

Expertise: React, Firebase, MongoDB, Tailwind, Daisyui, Bootstrap, CSS.
React-Router, env and etc.

Comfortable: node js, express js, error handling, cors, img hosting online.

Familiar: jwt, axios, stripe payment method.

Tools: NPM, vercel, netlify, figma, chat-gpt, vs-code and some more tools.

Projects:

1. Toy store:

[Client-site](#), [server-site](#), [Live-site](#)

- This site helps you to find any type of sports toys.
- And you can also add toys as much as you want

Technologies: React-Router, tailwind, daisyui, firebase, vercel, react-hook-form, Mongoddb, node-js, express-js and many more.

2. Summer-camp:

[Client-site](#), [server-site](#), [Live-site](#)

- This is a summer-camp website where many of students can buy many sports classes.
- And instructors have the authority to add any of classes.

Technologies: React-Router, tailwind, daisyui, firebase, vercel, react-hook-form, student dashboard, Mongoddb, node-js, express-js.

Education: National University, Bangladesh.
(B.Sc) in MatheMatics 2nd year.
